Students for Sustainability Award

This award recognises the school sustainability project that most fully showcases its students' innovative thought, design skills and true understanding of the impact sustainability projects have on our environment and communities.

Thank you for entering the China Schools Awards 2026!

Organisations may enter a maximum of **three** award categories across the eleven awards available for application.

Before starting your application, please read through these helpful pointers:

- Please make sure you have the key details of your school or organisation to hand including name, size of student body, address, contact emails and logo.
- Please make sure you have spoken to a range of other stakeholders and gathered any evidence you need to make the best possible case for your school or organisation. This may include photographs, quotations and testimonials, examples of student outcomes, video material or key statistics.
- A full list of awarding criteria and questions for each award is available on our website [here](#). They will also be visible on the online application form, but we recommend reading through them and discussing them with other stakeholders prior to completing your application.
- We strongly recommend that you have discussed the application with senior leadership.
- Please be aware that to ensure parity of opportunity, each section has a strict character limit which will not allow you to add more text.
- Please use your school's full English name as the application entry name.
- Please keep the finalist presentation date of **4th February 2026** free. If you are selected as a finalist, you will be required to do a 20-30 minute presentation to our judges on the day.

We look forward to receiving your submissions by the deadline of 11:59pm Beijing Time on November 14th, 2025. If you have any questions about your submission, please feel free to get in touch with us at education@britishchamber.cn.

Good luck!

Entry name

This year, the British Chamber's China Schools Awards are open to all internationally-focussed schools based in mainland China, or organisations which serve them. Applications are open to any school which fulfils at least **four** of the five criteria below, or organisation which serves more than one school which meets the same standard.

Please select which of the eligibility requirements either your school, or the schools that you supply, meet:

- Your school uses components of subject-based international curriculum, including some (such as IB, GCSE, AP) which terminate in public assessment
- Your school sends graduating students to variety of international university destinations
- Your teaching staff includes a steady proportion of internationally-engaged staff

Your school takes part in school network activities such as ACAMIS, FOBISIA, APAC or VEN, or is a member of the British Chamber

Your leadership and academic team have considerable experience working in internationally-oriented schools

Name of the organisation (in English and Chinese)

Organisation address

Organisation contact person (first and last name)

Organisation phone number

Organisation email address

Size of student body

Brief description of organisation

300 characters

Please upload your organisation's logo.

Only .png, .ai, and .eps files are permitted.

This award recognises the school sustainability project that most fully showcases its students' innovative thought, design skills and true understanding of the impact sustainability projects have on our environment and communities.

How does your school define sustainability in one sentence?

150 characters

Please provide the name and a brief outline of the project your students have championed to improve sustainability at your school.

1300 characters

What structures, policies and organisations within your school have supported students as they have developed and worked on their sustainability project?

1300 characters

What learning about sustainability has emerged or been showcased through the students' work on the project, and how has it connected with the school's values and/or curriculum? 1300 characters

How does the project develop students' understanding of and connection to their local community, and local and global aspects of sustainability? 1300 characters

In what ways is the project genuinely outstanding and innovative for your school? 1300 characters

Please provide a 3 to 4-minute video and photos of the student's sustainability project, with an explanation as to how this project exemplifies sustainability and how it contributes to the school's goals of sustainability thinking. Please provide a link to the video in the box below. Please ensure the video is accessible to those with the link, especially if uploading to Google Drive/Baidu Cloud.

Please provide a link to your video below.

We recommend testing the link on another computer before uploading it, to ensure that the judges will be able to open the video without logging in.

If you wish to upload any supporting photographs, videos, links or other material, you may do so here. **This is optional.**

Material may be supplied as follows:

1. Upload JPEG or PDF files. Maximum file size is 5MB per piece. A maximum of five pieces can be uploaded with your entry. If your
2. Video attachments may be hosted on a video site such as YouTube or Vimeo. Please paste the links in the given box, ensuring that all links are accessible without logging into an account.
3. Please do not upload any further written material as the judges will not consider these. The written component of your entry should be fully explained within the provided form fields.
